FROM THE EXECUTIVE DIRECTOR

Dear Members and Friends:

We are busy planning for our second annual *Transforming Lives and Community Luncheon* which will take place on Thursday, May 22nd at the Four Seasons Hotel. The awards luncheon is a new tradition for SF Village, providing a unique opportunity to celebrate aging and remind us of what’s possible well into our 7th and 8th decades. This year we are honoring two individuals who have made extraordinary contributions to their community throughout their lives and continue to do so as they age. Led by a conversation with KQED’s Michael Krasny, we will honor two people truly deserving of this recognition, Belva Davis and Henry Safrit, MD.

Ms. Davis is well known for her impressive and groundbreaking career as a journalist in California. For nineteen years she hosted KQED’s *This Week in Northern California*. Since retiring Ms. Davis has written a book called *Never in My Wildest Dreams*. Commenting on the book, Gloria Steinem said “Belva Davis has lived this country’s history as only a brave black woman could and has witnessed it as a journalist with a world-class head and heart.”

Dr. Henry Safrit, an accomplished San Francisco endocrinologist, is highly regarded for establishing the *Meritus College Fund* which awards scholarships to high school students who often fall below the cutoff for other financial award programs. In 2008, Dr. Safrit started *SF Achievers*, which focuses specifically on supporting young African-American males who are striving for success.

The luncheon promises to be an inspiring afternoon. We hope you can be there! Tickets can be purchased by calling SF Village at (415) 387-1375 or directly online at [http://tinyurl.com/lpxeu5t](http://tinyurl.com/lpxeu5t). Kind Regards,

VOLUNTEER OF THE MONTH-JAMES CLARKE
by Keyatta Shade

Volunteer James Clarke is making a difference in Village members’ lives -- one smart phone at a time. James and his wife, Kathy, learned about the Village when they recently returned to the City after spending most of their careers in the central valley. “I felt a need to get involved in a volunteer capacity that allows me to connect with others and be of value to the community.”

James, who began his volunteer work in January 2014, worked in technology and healthcare before retiring. He began his career teaching college students in respiratory care where he incorporated technology in his work over the years. Self-taught, he became so good at using technology that he stopped teaching students altogether and trained faculty on the use of technology in the classroom. He would eventually retire as the Faculty Development Coordinator of Technology at Modesto Junior College.

Since joining the Village as a volunteer, James has helped members with basic computer training, smart phone usage and other technology issues. When member Ralph Beren needed help with an e-mail problem, James responded without hesitation. “He was good at listening to my computer issues and managed to fix the
e-mail problem quickly,” Ralph said. “He is quite skilled and patient and I would recommend him highly.”

Member Sylvia Saunders needed someone to help her set up her new Kindle e-reader. Once again James responded. He even gave her some bonus help with some other computer problems. “I knew, without even asking, that he must have been a teacher by profession, and an excellent one at that,” Sylvia said. “The entire experience could not have been more positive. He was exceptionally generous with his time and knowledge.”

In addition to assisting members with tech issues, James also has driven members to Village related meetings and events. He’s even helped flyer neighborhoods with announcements regarding upcoming Village community meetings.

As a recent retiree and transplant to the city, these volunteer opportunities have given James a chance to meet new people in San Francisco. He’s hoping to develop friendships that will endure as he ages. “Not only am I getting to know people but I feel like I have a purpose,” James says. He also hopes the Village continues to grow and expand in San Francisco. He believes in the Village concept and recognizes that he himself may need services in the future. As James concludes, “There is so much potential to be realized when we reach a critical mass of members and volunteers.”
