SAFE AT HOME WITH SFV FALLS PREVENTION

Staying healthy in our homes as we age means creating a safe environment for ourselves, free from hazards that could contribute to slips, trips and falls. After age 65, one in three adults fall each year, and 20% of those suffer moderate to severe injuries that challenge their ability to live independently. Understanding home safety is a key aspect of falls prevention and a Safe Home Assessment will provide information that can empower you to think ahead about injury prevention in your home. Since January 2015, SF Village has offered

free home safety assessments and dozens of you have taken advantage of this valuable benefit.

We are partnering with Orlanda Wilson, a licensed general contractor and Certified Aging in Place Specialist, to help you make simple modifications that increase your safety, comfort and security. Orlanda's small fixes that can make a big difference include: grab bars and handrails, gardening handholds, updated rugs, comfort-height toilets, improved security measures, stairway access, and lighting. All members who request a home visit receive a personalized report and recommendations to promote aging in your own home safely.

Jeanne Halpern, SF Village member in Glen Park says, "Orlanda visited us in March and did a VERY thorough safety assessment of our home, including the garage, decks and garden. We invited her because I was feeling uneasy about my balance. She and I walked up and down the trails of my huge cliff garden together. Her observations were keen and tactful, and the letter that followed her visit was full of specific, helpful recommendations." Harlean Donaldson, a member who lives in Noe Valley told us, "I have a vision impairment so when SF Village offered a free home safety assessment, I jumped at the opportunity. Orlanda pointed out hazards and made suggestions for how to correct them, such as improved lighting which is so important for the visually impaired. Afterwards, Orlanda sent me a list of the recommendations so I did not need to remember everything. I highly recommend this free valuable service!"

If you would like to sign up for a Safe Home Assessment please email **<u>info@sfvillage.org</u>** or call Key at (415) 387-1375.

LEARNING ABOUT THE POWER OF MYTH: Six Conversations between Joseph Campbell and Bill Moyers

"Find a place inside where there's joy, and the joy will burn out the pain."

Joseph Campbell

Sept 1 & 15, Oct 6 & 20, Nov 3 & 17 IOA Ponderosa Room, 11:00 AM to 1:00 PM 3575 Geary Blvd, San Francisco, CA RSVP to Bill Haskell at: <u>bhaskell@sonic.net</u> or (415) 661-2670

This new group, a continuation of the Exploring Elderhood group, will watch *The Power of Myth*, the fascinating series of interviews of the renowned scholar Joseph Campbell by journalist Bill Moyers, recorded 25 years ago in 1990. These two men discuss myths as metaphors for human experience and the path to transcendence, touching on topics as diverse as world religion, heroic figures, and pop culture. This series became one of the most enduringly popular programs ever aired on PBS.

There will be six meetings and each will be two hours, from 11:00 am to 1:00 pm. During the first hour we will view one of the six sections of the series and in the second hour there will be a discussion of the material. A study guide will provide the focus for the discussions. Participants are encouraged to bring lunch to enjoy during the second hour of each meeting.

The first meeting will be introductory. At the conclusion of the first meeting, participants will be asked to commit to the five remaining meetings.

OPTIMIZING AGING: A Presentation by Dr. Louise Aronson

Wednesday August 12th 3:30 - 5:00 PM Auditorium, IOA, 3575 Geary Blvd. RSVP to (415) 387-1375 or <u>info@sfvillage.org</u>

Using stories, science, humor, and art, Dr. Aronson will discuss what's normal and what isn't as we age; under-recognized myths and opportunities of old age; and strategies for staying independent and healthy, including how to move from *what's the matter with you* to *what matters to you?*

Louise Aronson MD, MFA is a geriatrician, author and professor of medicine at UCSF where she is chief of Geriatric Education and holds a Gold Professorship in Humanism in Medicine. Dr. Aronson also directs the Northern California Geriatrics Education Center and UCSF Medical Humanities and sees patients in the UCSF Care at Home Program. She writes regularly for newspapers, literary and medical journals, including the New York Times, the San Francisco Chronicle, the New England Journal of Medicine, and the Lancet. STORY CIRCLE: A STORYTELLING WORKSHOP SERIES

10:30 AM - 12:00 PM August 6, 20, 27 [skip August 13] Ponderosa Room, IOA, 3575 Geary Blvd. RSVP to (415) 387-1375 or <u>info@sfvillage.org</u>

Often, the best way to unearth a story is by talking it through with a group of delighted listeners. In this multi-session Story Circle, we'll use the tools of storytelling to discover and develop our stories. If your life is rich with experiences that you'd like to turn into tellable tales, this is the group for

you. If you love to invent new worlds, we'll play improvisation games to strengthen your imagination and then unleash it! Whether your goal is a spoken performance or a written story, you'll develop new material here. (You can even have your story recorded and emailed to you, to make it easier to transcribe.) Meeting weekly for 90 minutes, participants have an allotted time to discover their story by telling it aloud, while we listen delightedly. It would be great if you could attend the whole series, and drop-ins are also welcome as we started in July.

Led by Ruth Halpern, who has been teaching storytelling workshops and performing for over 20 years. Working with business people, performing artists, elders and children, Ruth helps people become the heroes of their own life stories. Her repertoire of games and exercises includes tools from theatre, improvisation, storytelling, and make-believe. She creates safe story circles in which all of our stories can be shared. As a performer, Ruth tells a mixture of world folktales, personal stories, and improvised stories made up on the spot. Her audiotape, She Set Out to Seek Her Fortune, won a Parents' Choice Gold Award. The LA Times says Ruth Halpern is "A spell-binding master storyteller."

VOLUNTEER OF THE MONTH-JANE MACFARLAND By Keyatta Shade

Jane MacFarland is helping San Francisco Village get organized one member at a time. Since becoming an SFV volunteer, she's helped several members who found themselves stuck and struggling to make decisions when it came to getting their homes in order.

Sandy Chaves was overwhelmed with the disorder and lack of space in her home. She reached out to SFV hoping we might be able to connect her with a professional organizer. It just so happened that we

had the near equivalent of a professional organizer, Jane MacFarland, willing to volunteer her time to help. Jane had spent 30 years as an Executive Assistant in top management, a position which required her to learn the do's and don'ts of professional organization.

Jane connected with Sandy right away. She took Sandy's wishes into account, and coordinated a new filing system with the help of two St. Ignatius high school students. "I gained two free drawers by the time they were finished," Sandy said. After filing, Jane and Sandy tackled the bedroom and walk-in closet. Jane has now visited four times to assist with other projects.

Barbara Batts found herself overwhelmed with a hall closet. "It seemed like an insurmountable task," she said. "Jane did the job with enthusiasm and made it look easy. She left me tips on how to keep it organized and also suggested the types of containers I'll need to purchase to complete the job. I was amazed. She actually had fun doing the job!"

Sarah Goldman sought aid and comfort from SFV in preparing to move to a senior community. Again, Jane stepped up without hesitation. The two met to assess Sarah's situation and put together a work plan that puts Sarah's mind at ease. "I'm actually looking forward to getting my home organized for the move with Jane's support and expertise," Sarah said.

Each member described Jane as personable, enthusiastic and genuinely interested in them and the work that needed to be done. Jane and Sandy have been working together the longest and both describe a budding friendship. "We have shared our history and our daily lives and that has brought us closer," Sandy says.

Currently, Jane is helping Sandy to organize her memoirs, make progress on downsizing, while freeing up more space in her home. She explains that you naturally learn about people when you are organizing their belongings. "Connecting with these incredibly intelligent, funny, positive, and open women has been the highlight of my volunteer experience," Jane said. "I hope to be just like them as I age."

AT THE MOVIES WITH RALPH BEREN TRAIN WRECK

Here is a film with a title that perfectly describes the problem. Amy, the protagonist, is a train wreck. All of us carry around baggage from our childhood and Amy's

includes a message from her father: Never be monogamous. She stays true to his advice throughout her young adult life and sleeps with whomever she pleases. Surprisingly she has a boyfriend who knows nothing about all this. When she spends an evening with him trying to correct his sexual positions and he cannot comply, Amy gets rid of him.

In the meantime she works at a fashion magazine called *s'nuff*, which is run by an unrecognizable and demanding Tilda Swinton. Swinton is a witch and because Amy hates sports, Swinton sends her out to interview a somewhat well- known sports doctor. What follows is hilarious repartee between the two where Amy tries to bluff her way through several sports questions. Much to her surprise Amy likes the doctor and a most unlikely affair begins.

To tell you more would spoil the movie for you. However hats off to a great supporting cast, led by LeBron James who plays himself with incredible ease. Maybe a movie career after basketball? And Tilda Swinton is deliciously awful. John Cena, who plays the boyfriend unable to handle sex or Amy, is hilarious as a beefed up homophobic gym guy.

Have fun! Go see the movie.

DAZZLING DAMES OF BROADWAY -a Telegraph Landing Circle presentation *The Sound of Music* and its star Julie Andrews

Julie Andrews is one of those rare Broadway stars who had an equally successful career in films. Born in Great Britain to a vaudeville family, she made her Broadway debut in 1954, at the age of 20, in *The Boyfriend*. She achieved stardom on Broadway in two legendary Lerner and Lowe musicals, *My Fair Lady* and *Camelot*.

She was passed over for the 1963 film version of *My Fair Lady* because she was not yet a "bankable movie star". Yet the very same year, she played the title role in the film musical *Mary Poppins* for which she won an Academy Award. From then on, her film career soared, including the hugely successful movie version of *The Sound of Music, Thoroughly Modern Millie, The Americanization of Emily* and a host of others.

LONGEVITY EXPLORERS: Better Quality Life, leveraging crowd-sourced insights, and technology

Presentation by Dr. Richard Caro, co-founder of Tech-enhanced Life

Wednesday, September 23rd 1:30 - 3:30PM Auditorium, IOA, 3575 Geary Blvd RSVP to (415) 387-1375 or info@sfvillage.org

Whether it's hearing, vision, mobility, or mental sharpness, a gradual decline in our ability to function happens to us all. But what if technology could be

developed that would delay when decline starts to impact daily life? And what if there are things we can do now to make growing older less challenging, but we just haven't heard about them yet?

In this interactive forum, Dr. Richard Caro will describe some recently developed, technology-enabled products that are improving the lives of older adults. In addition, he will introduce an experimental*sharing and ideation community* called the Longevity Explorers. Longevity Explorers meet regularly to leverage the insights, years of accumulated wisdom, and the enthusiasm of older adults to accelerate the emergence of novel solutions to some of the challenges of aging. **San Francisco Village and Tech-enhanced Life will convene an ongoing group of Longevity Explorers beginning on October 6th. Learn how you can be part of this group!**
