Dear Members and Friends:

2017 is turning out to be a year of many transitions and adjustments – a test of our resilience. Our move out of the Institute on Aging marks a significant milestone in our development, like a young adult who moves into their own apartment for the first time. As a staff, we’ve adjusted to the close quarters in our temporary office, and eagerly anticipate what it will be like to inhabit 2,500 square feet on Fulton St.! We expect construction to be complete in early to mid-August and of course, we’ll keep you posted if anything changes.

Many of you have expressed concern and exasperation with the events in Washington – a true test of our resilience - and have requested some kind of forum to process the unprecedented events of the past few months. We’re thrilled to offer you an exceptional opportunity to engage in a meaningful conversation with Dr. Rebecca Gordon from USF entitled, *(World) Citizenship in the Age of Donald Trump: Three Vital Conversations about the Present Moment.* Dr. Gordon will focus each session on the following questions: Where are we now, How did we get here, and Where do we want to go? Our hope is that we’ll come away feeling better informed and more prepared for how to respond.

June is Pride Month and we’re delighted to support the many ways that the LGBT community is celebrating diversity and LGBT rights this month. In particular, San Francisco Village joins with the Institute on Aging in inviting you to the *Senior Prom* on June 17th. Maybe you loved prom when you were in high school, maybe you hated it, maybe you didn’t attend. No matter what your associations with prom used to be, this is a second chance to reclaim prom with a proud LGBT senior community.

Finally, we’ve scheduled a New Member Orientation for June 26th. Our apologies for cancelling the March meeting, due to our move. If you’ve joined within the past year or haven’t participated in a while, we’d love to see you at this welcoming event. Learn about programs and services, get to know the staff, meet other members, and discover how you can become more involved. As we’re fond of saying: satisfaction with San Francisco Village correlates with participation. We encourage you to jump in!
Warm Regards,
Kate

P.S. For those of you who prefer to express yourself without words, we're excited to offer a series of printmaking classes with professional artist Nancer LeMoins this month. All levels of experience welcome!

**SAN FRANCISCO VILLAGE THANKS SUTTER HEALTH CPMC**

Sutter Health CPMC recently awarded SFV funds to expand its Aging Well Program in 2017. Led by staff member Rachel Lanzerotti, the Aging Well Program consists of four key areas related to aging that arise most frequently or with the greatest impact: purpose, connection, transition and memory.

We are grateful for the support of Sutter Health CPMC and look forward to deepening our relationship in the months ahead.

(World) Citizenship in the Age of Donald Trump: Three Vital Conversations About the Present Moment

June 13: Where are we now?  
Donald Trump’s election is already affecting the lives of people in this city, in this country, and around the world. In this session, we’ll discuss some of the key implications of the new alignment in Washington – for the U.S. economy, for health care, for communities of color and women. We’ll look as well at the possibilities of war and peace in this new period.

June 20: How did we get here?  
What are some of the many economic, political, and social conditions and forces that led to the Republican sweep of Congress and Donald Trump’s election? We’ll examine what the November election tells us about fault lines in the United States of 2017. We’ll ask what people who care about the common good can learn by thinking about these questions.

June 27: Where do we want to go, and how do we get there?  
We’ll discuss our vision of a just United States. What resources does each of us turn to when we imagine that vision? Do we look to religious traditions? To secular personal values? To the ideas in the founding documents of this country, like the Declaration of Independence, or the Constitution? We’ll discuss concrete steps we can take in the near term – between now and the 2018 elections, for example – and we’ll look at longer term changes, and how we can be part of them.

She teaches at the University of San Francisco, in both the Philosophy Department and the McCarthy Center for Public Service and the Common Good. WHAT’S TRENDING?

**Day of Service: Call for Projects**

SFV is partnering with the Canvas Church women’s group to assist our members with household chores and projects around their homes. These phenomenal women are ready, willing and able to help you complete those pesky to-do tasks.

Interested SFV members should submit a list of home maintenance projects that do not require a professional such as gardening, light house-cleaning, mattress flipping, organization, light bulb changing, light painting, etc. Members may also request some basic technology assistance such as help with e-mail, accessing the Internet, or training on your iPad, Macbook or smartphone. Key Shade will need to approve your list of home projects, which should fill a two-hour time slot.

Volunteers will come to your home in groups of four on Saturday, July 29 between the hours of 10:00 AM and noon for shift one, and between 1:30 and 3:30 PM for shift two. This is a wonderful opportunity to create some intergenerational community, have some fun and get those pesky tasks completed!

Please submit your list no later than July 15, as space is limited: (415) 387-1375 or key@sfvillage.org.

**Volunteer of the Month – Natasha Hazer**

Natasha Hazer has been a San Francisco Village volunteer for a mere three months, but the friendships she’s developing will last her a lifetime. SFV members Sheila Simon, Dione Bowers and Jim Blacksten each speak highly of Natasha’s talents and personal nature.

Sheila Simon needed help with her ‘Epson printer from Hell’ as she describes it. Her first meeting with Natasha was more than she expected. “This tech savvy, energetic, self-possessed volunteer showed up on my door step. It was immediately apparent to me that this woman was
filled with warmth, curiosity and a genuine exuberance for life! She’s also a hugger, if you are needing that!”

After the initial task – fixing the printer – was complete, Natasha and Sheila spent the afternoon having tea, and sharing personal stories about their lives, and the need to stay grateful and positive for all that the world offers. “She has this quality of observing all the stuff in our lives that matter to us, valuing 70 years of photos, cherished knickknacks, art, and books that make up who I am,” Sheila said. “She could pull a snail out of its shell with the exuberance for life she has.”

Dione Bowers also received tech assistance from Natasha. “Not only did she help me with my problem, but we found that we had things in common on a more personal level. I met her husband, who is from Normandie, which is where my son lived for close to a year. She’s just a wonderful person and I appreciate her willingness to help an old lady who is technologically stupid.”

New SFV member Jim Blacksten met Natasha every two weeks so that she could help out with filing and office work in his home. “Natasha is smart, capable, efficient, and friendly as a volunteer. From time-to-time, if our schedules allow, we even go to lunch or a special event together. I’m grateful for her time, efforts and energy.”

Since March, Natasha has provided basic assistance to SFV members that has ranged from administrative work on a weekly basis to one-off help changing a light bulb to tech troubleshooting, such as printer assistance, laptop and iPad training, posting items for sale on Craigslist and even setting up Gmail accounts. She volunteered her time at SFV’s annual fundraising luncheon and even lends a hand at the 94131 Circle meeting as needed. Despite all of the work that she does, Natasha says she benefits just as equally from her experience as a volunteer: “It’s been a win-win situation. Not only have I made new friends during this experience, but it’s also been eye-opening for me in that it’s gotten me thinking about retirement and my later years. A direct impact is that I’ve been exercising, eating healthier, and drinking more water.”

She advises anyone interested in this type of volunteer work to bring to it a sense of humor, patience, as well as an open heart and mind, “I’ve been talking to my friends about this experience and encouraging them to reach out to Key if they would like to get involved. I’m grateful to be a part of the Village community.”

MEMBER TO MEMBER

Book Recommendation
San Francisco Village member Lois Roth recommends the book *Option B* by Sheryl Sandberg, the COO of Facebook.

“Sheryl Sandberg’s husband died suddenly while they were on vacation in Mexico. They are in their 40s. The subtitle is Facing adversity, building resilience, and finding joy. It’s beautifully written with lots of personal examples from the author, and many others who are facing grief. Deeply researched with lots of contributions from other people. No clichés. I think it might be of interest to SFV members and others, especially us older ones.”
