Dear Members:

Happy news! We have secured a new home for San Francisco Village, just ten blocks from the IOA, at 3220 Fulton St. near 8th Ave., right across the street from Golden Gate Park. It is spacious enough for current and future staff, member programs, and even informal gatherings among members. It’s a space we can grow into and we can’t wait to share it with you!

We are interviewing contractors to complete some renovations like moving a few walls, painting and carpeting, which should be complete in June or July. In the meantime, the staff will relocate to a shared office space at Mission and 10th St. for a few months, while member programs will continue to take place at the IOA. We are thankful to the IOA staff for their commitment to SFV and their desire to make this transition as smooth as possible. Our goal is to minimize any disruption in programs and services for all of you. That said, we will appreciate your patience as we navigate the relocation.

This is truly a developmental milestone for SFV. A home of our own that will provide comfort and security as we carry out our mission and imagine our future. We’ve already begun to discuss member art exhibits, poetry readings, TED Talk discussions, drop-in consultations, and informal coffee klatches. We’re planning for regular open houses so you can invite friends and neighbors to learn more about why they should join too. The long-term lease will allow us to deepen our roots, broaden our branches, and say to the larger San Francisco community – we’re here to stay!

We’re taking our phone number with us and of course e-mail addresses and the website will all stay the same. Please don’t hesitate to contact us if you have any questions or concerns. Although moves are always disruptive, with a little luck and a lot of collaboration, we’ll be on the other side of it before we know it.

Warm regards,
Kate

The Vial of L.I.F.E. (Lifesaving Information For Emergencies) is a program that allows individuals to have their complete medical information ready in their home for emergency personnel to reference during an emergency. The first thing first responders want to know is your list of medications. The difference between life and death when you’ve had a heart attack could be a copy of your previous EKG. When you can’t speak for yourself, when you are confused, in pain or scared, the Vial of Life can speak for you.

Come to this informative and hands-on session and have the opportunity to fill out the Vial of Life. Participants will receive the decals needed to communicate to EMTs where their vital medical information is located and can opt into a yearly renewal process to make sure medical information is up to date. Please bring all important medical information such as insurance information, doctor's numbers and preferred hospital, list of medications, emergency contact(s), and anything else you’d like emergency responders to know in order to provide the best care.

This session will be facilitated by Elaine Chow of Franklin Pharmacy.
