Dear Members and Friends:

This month marks the ninth anniversary for San Francisco Village, and the beginning of our 10th year. Writing this at my desk in our new office on Fulton St. and reflecting on how we got here, I am filled with gratitude for all the love and dedication that has built this community. Throughout the years people have given of themselves in ways big and small: board members, volunteers, members, staff, donors, foundations, and colleagues. Their vision for what San Francisco Village could become is writ large on the walls of our new home, in the relationships that we all cherish, and in the countless daily interactions that bring that vision to life: to create an intergenerational community that dignifies aging. On the threshold of a new year I send my deepest appreciation to those supporters on whose shoulders we stand.

Ellen Sandler, Susan Poor and Claudia Lewis are three sets of shoulders that deserve a shout-out. Susan and Claudia were part of the original team that met in living rooms and at kitchen tables 12 years ago to erect the scaffolding that would become San Francisco Village, and then went on to serve as board members until just last month. Claudia will continue for one more year as immediate past chair and Susan and Ellen will remain members. To all of them I say: thank you. Your investment of time, talent, vision and heart has made us who we are today. Your fingerprints are everywhere.

Our annual State of the Village meeting on Friday, February 16 is another way to measure growth, take stock and imagine what’s next. It’s also a wonderful opportunity to get better acquainted and connect with people you haven’t met before. In addition, we have invited a group of preferred service providers so that you can become more familiar with what they do and how they may support you, now or in the future. Finally, we will review the results of the member survey and discuss our plans for 2018. Please note that the meeting will take place at the Institute on Aging, 3575 Geary Blvd., because
our new office isn’t big enough for all the people we expect. If you need a ride, please call Jill Ellefsen at (415) 387-1375.

We’re sending Sarah Kent our heartfelt best wishes for the safe delivery of a beautiful baby early this month. She expects to be back in the office sometime in May. Please join me in warmly welcoming her replacement, Tina Shibue, whom you can read more about in this newsletter. We’re delighted to have you on the team, Tina!

I hope to see you soon!

Warm regards,
Kate

Welcome Tina Shibue, Interim Program Coordinator

One of those rare San Francisco residents born in the city, Tina grew up in Oregon and returned to California for her undergraduate studies. Tina has an MBA from UC Berkeley-Haas and a BA in English from Santa Clara University. She likes to stay active by practicing yoga and learning qi gong, hiking around the Bay Area, skiing, and traveling.

Inspired by her grandfather, who aged with grace and maintained his independence well into his 90’s, Tina wanted to make the transition from the tech sector to working to improve the lives of seniors living and aging in the U.S. She has volunteered with the Jewish Home of San Francisco and first learned of San Francisco Village when she attended the live-streamed Atul Gawande talk. A lively discussion followed and Tina was engaged. That discussion led to the development of the ‘Agents of Change’ speaker series, and Tina joined the group’s planning committee.

She is grateful for the opportunity to step into this field with the welcoming and vibrant San Francisco Village community, and looks forward to getting to know members in the coming months.

Did You Know?

Volunteers are an integral part of our community – kind-hearted people who are generously sharing their time and talent with us. Volunteers join SFV for a variety of reasons: to give back to the community, to learn about someone they otherwise would not meet, to feel like they are needed, to know they belong to something bigger than themselves, the list goes on.

Every month, San Francisco Village seeks out a handful of volunteers to prepare the newsletters for mailing. The tasks are fairly simple – stuffing, labeling, stamping and sealing envelopes – but with a small staff, we would not be able to get them done on our own. If you are interested and able to help, please let us know! We are grateful for your support.
The next newsletter mailing is scheduled for Monday, February 26 from 11:00 AM to 1:00 PM. If you are able to participate, please RSVP to Jill Ellefsen at (415) 387-1375 or jill@sfvillage.org.

Join this storytelling workshop to build on and expand techniques useful in how you share your stories in a way to captivate listeners. Workshop themes, prompts, and tales can be used in future neighborhood circles, gatherings of friends and family, and SFV programs. Maintaining Mobility Introduction
Thursday, March 8, 10:00 –11:30 AM
SFV, 3220 Fulton St. at 8th Ave.
RSVP to (415) 387-1375 or info@sfvillage.org

A lot of age-related mobility loss is unnecessary because there are simple things we can do to make a real difference. We all have longstanding movement habits that perhaps we got away with while young but that aren’t serving us very well anymore. The trick is to learn more efficient ways of moving. You will have an opportunity to try some new strategies for common mobility issues such as walking fluidly with balance, turning to look behind you and getting up easily from a low chair. An overview of the six-session Maintaining Mobility class — scheduled to start the following week on March 15 — will also be presented.

Penny Sablove specializes in improving the mobility of seniors. She has been developing senior programs to improve balance, gait, agility, endurance and strength for over 20 years for community organizations, including Osher Livelong Learning Institute and as a physical therapist at Kaiser Permanente. She is also a 5th degree black belt in the Japanese martial art of Aikido and she has created an adapted form of this art for seniors and people with disabilities.

Among the Reeds: Author’s Reading
Friday, March 9, 2:00 – 3:30 PM
SFV, 3220 Fulton St. at 8th Ave.
RSVP to (415) 387-1375 or info@sfvillage.org

In her best-selling book Among the Reeds: the true Story of how a Family Survived the Holocaust, Dr. Tammy Bottner recounts an astonishing story of courage and resilience. In order to save their young children, Bottner’s grandparents gave them up, sending them into hiding alone during WW2. Miraculously they all survived and were reunited. But did the experience change their genes forever?
Dr. Bottner will read from her book and discuss epigenetics, the science showing that life events modify our DNA.

**Maintaining Mobility Six Week Series**

**Thursdays, March 15 – April 19, 10:00 – 11:30 AM**
SFV, 3220 Fulton St. at 8th Ave.
RSVP to (415) 387-1375 or info@sfvillage.org

We will practice movements of everyday life - such walking steadily and confidently through a crowded room, reaching, getting up and down from a chair or other low surface, turning direction, taking stairs and anything else that concerns you. As you learn more efficient ways of moving, you will also find yourself moving with more grace and pleasure.

We will use techniques from the many physical disciplines – physical therapy, Feldenkrais, martial arts – and this makes the class a lot of fun. The class content is designed to carry over into daily life. We are not merely exercising; we are practicing a new way of moving through the world.

San Francisco Village is thrilled to partner with Neuroscape for a bi-monthly speaker series, with talks by faculty members, program directors, and lead research staff. Neuroscape is a translational neuroscience center at UCSF engaged in technology creation and scientific research to better assess and optimize brain function of both healthy and impaired individuals. Check out the website for more information: neuroscape.ucsf.edu.

This talk will describe the use of scientifically-based video games as tools for assessment and intervention in a number of different populations: from children to senior citizens, healthy or cognitively impaired populations. Through the use of digital health technologies, there is not only the potential to provide meaningful improvements in one's cognitive control abilities (attention, working memory, goal management) and assess these changes in a real-time fashion, but to also make these efforts fun. Joaquin will be bringing by some iPads to allow those at the talk to test out some of our latest technologies as well.

Dr. Joaquin Anguera is a neuroscientist who specializes in developing & implementing cognitive training interventions. He is especially interested in integrating mobile technologies (tablet, phone)
into existing interventions and paradigms to leverage data collection outside of the laboratory. Given his training in Kinesiology and Neuroscience, Joaquin’s research targets unique aspects of cognitive & motor performance and how each are affected in healthy (young adults, older adults, children) and/or impaired individuals (autistic, ADHD, depression).

Improvisational play is something we all did naturally as kids but as adults may have “forgotten” how to do. Play has many benefits including stress relief, humor and helping us to increase spontaneity.

Rob Sarison has over 20 years professional experience leading groups and individuals of all ages in improvisational play. Rob currently directs the Irene Swindells Program at California Pacific Medical Center.

Community Thrift Store
San Francisco Village has a unique opportunity to receive cash donations from Community Thrift Store. When your items sell, they will deduct their operating costs and give SFV the rest in cash. Community Thrift welcomes donations of clean clothing, jewelry and accessories, costumes, leather goods, shoes and boots that are still wearable, art and decorations, sports equipment, house wares, lamps, luggage and much more. For large amounts (more than 20 bags) they will arrange a pick-up at your house. If you are unable to take your things to their location, please call the SFV office to coordinate a time when we can collect your goods and drop them off for you.

This is a wonderful way for SFV to bring in additional monetary donations. Be sure to mention the San Francisco Village account # 122.

Community Thrift is located at 623 Valencia St., San Francisco 94110; their phone number is (415) 861-4910, and website is www.communitythriftsf.org.
