Dear Members and Friends:

I’ve been thinking about young people lately. Last week I was invited to judge an 8th grade Civics Fair, where teams of students presented projects addressing issues they encounter in their everyday lives: climate crisis, homelessness, gun safety, and police brutality to name a few. They spoke with deep conviction about what’s at stake for their generation’s future. They inspired me.

It was sponsored by Generation Citizen, a nonprofit that declares every student has the right to learn how to effectively participate as citizens. What could be more crucial right now as we witness the impeachment of the president; the threat to free and fair elections; and a systematic upending of the rule of law? These young people give me reason to hope.

I returned to the office that afternoon to learn that Greta Thunberg, the 16-year-old climate activist, was named Time Magazine Person of the Year. She has become an icon of her generation, bravely demanding that world leaders heed science and act urgently to address the climate crisis. Millions of students around the world have answered her call to action.

Last month, Ms. Magazine published my op-ed called I’m a Boomer and I’m Furious, a response to the OK Boomer story, in which Generation Z scolds Boomers for the mess we’re in. The opinion is posted on our website news page. In it, I suggest that older people allow themselves to be led by the urgent vision of younger generations. We have an important role to play - leveraging our positions of power and resources to advance an agenda driven not by us, but by the clarity of our children and grandchildren. They have more at stake.

What do you think? Would you like to learn more? If so, I’d like to create some opportunities for us to meet with young people, learn from each other and plan some collective action in 2020. Let me know what you think.

Happy New Year!
Kate

January 10: Warrior Women (2019)
Warrior Women is the untold story of American Indian Movement activists who fought for civil rights in the 1970s and the children who served as their inspiration and their cohorts. The film is anchored by one of the Red Power Movement’s most outspoken Lakota leaders, Madonna Thunder Hawk, and her daughter Marcy Gilbert. Now, forty years later, Madonna is moving into the twilight of her life, fighting the inevitable slowing she dreads. She constantly worries aloud who she will “pass the torch” to. Warrior Women unveils not only the women’s perspective on history, but also real-life activism echoing far beyond news events into generations to come.

Along the way, we learn valuable life lessons – “Soniaisms” – from a woman who can barely see over the steering wheel, yet insists on driving herself to work every day to run her late husband’s tailor shop.

Diana Carey has owned Spotlight Home Improvement Services for the last four years in San Francisco and the surrounding Bay Area. Diana also owned a tile setting company in San Francisco in the 1980’s. Throughout her many years working in the remodeling business both commercially and residentially, she found that many clients asked her similar “how to repair” questions. Many of us find ourselves in this role unexpectedly and are ill-prepared to manage the demands, stress, and changes to family dynamics. We need resources, connections and new skills to cope with a new landscape.

Join us for an afternoon of improvisation, theater games, and role-playing exercises to help us develop the confidence and skills we need to care for ourselves while we care for others. Kari Rogenski, LMFT, a registered drama therapist who specializes in elder care and expressive arts, will facilitate a collaborative process based on the needs of those in attendance. Friends, family and neighbors welcome! This program is now accepting RSVPs.

Peggy Orenstein’s Girls & Sex shattered taboos and launched conversations about young women’s right to sexual pleasure and agency. Now, in Boys & Sex, she reveals how young men understand and negotiate the new rules of physical and emotional intimacy, resulting in a provocative and paradigm-shifting work that offers a much-needed vision of how boys can truly move forward as better men. Dani Shapiro & Abraham Verghese on 1/30/2020 at 7:00 pm (20 tickets available)
In 2016, memoirist Dani Shapiro took a genetic test on a whim, believing that she knew her history well – the daughter of Orthodox Ashkenazi Jews, raised on her father’s stories of their family and ancestors. But her DNA revealed that the man she’d known as her father for her whole life was not biologically related to her. Her instant New York Times bestselling memoir, Inheritance, is about secrets – secrets within families, kept out of shame or self-protectiveness; secrets we keep from one another in the name of love.
